Forecast For Southwest England
Issued by Met Office Exeter
at 1600 on Tuesday 08 Jun 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Days turning cloudier, with fog overnight.

This Evening and Tonight:
A dry night with patchy cloud. There may be the occasional periods where the cloud breaks to give clear spells. Fog forming in prone areas. Some cloud and light rain then begin to approach the west coast towards the morning. Minimum temperature 9 deg C (48 deg F).

Wednesday:
Fog quickly clears in the morning to give sunny spells. It then turns increasingly cloudy into the day, and with patchy light rain continuing to fall at times. Maximum temperature 23 deg C (73 deg F).

Outlook for Thursday to Saturday:
Rather cloudy on Thursday and Friday, with patchy drizzle. Dry and bright on Saturday. Overnight fog likely through this period, especially along northern coasts. Feeling warm throughout.
